Activities

The ISP is a meeting place for practitioners and researchers in Catholic higher education, giving structure to experiences of thought and analysis of practices.

The Faculty of Education has been offering diplomas in "Educational Sciences" (bachelor, master, and Ph.D), as well as various university courses on the subject of education, since 1993.

Since 2009 it has been working in partnership with the training institutes responsible for Catholic teaching, and has opened a new masters in preparation for careers in teaching, education and training.

The faculty also sees itself as a meeting place for practitioners and researchers in Catholic higher education, helping give structure to experiences of thought and analysis of practices.
