## Carnets de Mobilité – The International Event of the Year for ICP Students!

*The 4th edition of the annual « Carnets de Mobilité » took place this past March, an event dedicated to students interested in studying abroad.*

### **An International Event**

The Carnets de Mobilité is an annual international event at ICP, organized by the Delegation of International Affairs. This event brings together students who have just come back from studying abroad, with those who will be going abroad next year. In addition to international exchange students, currently studying at our campus. It is a key moment, where students can meet and share their experience.

This year approximately 150 students attended. Our international student ambassadors took center stage, to discuss their experience studying in Italy, Argentina, Lebanon, Mexico, South Korea, Spain, the Netherlands, Japan, and the US. Students shared personal memories from their time abroad:

*“I am convinced that all the missions and challenges that will be offered to you will make your experience in Taiwan an enriching experience, full of twists and turns.”*

*Léo Soler, currently studying Applied Foreign Languages*

## Why Should You Study Abroad?

Each year more than 150 of our students study abroad during their studies at ICP. Studying abroad is a unique opportunity to participate in an exchange program, and study during a semester or a year, at one of our 135 partner universities. Students take courses similar to those they would have taken at ICP. Once students have arrived at the partner universities, the same rules apply to them, as for all the other students. Beyond the academic aspect, studying abroad is also an opportunity to discover a new culture, improve your foreign language skills and on a personal level, to step outside of one's comfort zone and learn to be autonomous, independent, and mature.

ICP welcomes exchange students from around the world each year. This year, we have approximately 70 students coming from all corners of the globe, including : Switzerland, Taiwan, Brazil, United States, South Korea, Portugal, Japon, Canada, Lebanon, Germany, Italy, Spain and many more.
