Evenings at the Louvre

As part of the “Youth Have the Floor” and “Evenings at the Louvre” cultural programs, ILCF students will allow you to explore the Louvre as you have never seen before, during a special visit curated by them.

During the "Evenings at the Louvre", each student will present a work of art from the museum, in both French and his/her native language.

Aged between 18 and 60, the students represent 10 different nationalities.

All French art movements will be represented, from the Renaissance to Romanticism. This unique presentation will be followed by a discussion.

A not-to-be-missed event !

Free for visitors under 26 years of age
