Welcome and Orientation Sessions

A Welcome and Orientation Session is organised for international students by the International Relations Office at the beginning of each semester. It generally takes place over three days and includes: a presentation of the university and student services; a step-by-step explanation of the enrolment procedure; practical information about life in Paris ; a Seine river cruise close the session. It is also, of course, the occasion to meet with many other international students.

Residence Permit Office

A Residence Permit Office in direct contact with the French administration offices helps non-EU students with their immigration documents and visa renewal. The Office receives students four days a week throughout the year.

Social Security

The healthcare system in France includes mandatory health insurance (Social Security) and an optional complementary, top-up insurance (la mutuelle). Students who are citizens of the European Union must bring their European Health Insurance Card to France. All other students must apply for French social security before arriving in France, by signing up via the dedicated website:
